INTRODUCTION

Once again it is our pleasure to present you with a copy of our new wholesale list.

As always, our endeavor is to grow the finest plants possible. By selecting the better type plants of all varieties and propagating from them we believe we have accomplished much toward this end; and have introduced many new superior varieties and types. All our plants receive the best possible care: they are root pruned and transplanted so as to develop a fine root system; they are sheared, sprayed, fed, cultivated and watered to assure compact, clean plants. Your orders are dug and handled by experienced men in the very finest manner, and prompt delivery service is available if you so desire. Our every effort is directed toward developing and growing good heavy plant material offered at the lowest possible price, and to merit your confidence and good will. Your patronage makes this possible and we wish to express our appreciation with a most hearty Thank You!

You are most cordially invited to visit either or both of our farms. Our office is located at Angelica, near Reading, Pa. Please address all correspondence here. (R.D. #1, Mohnton, Pa.) Our Maryland farm is located on the Eastern Shore at Chesterville, Kent County. My sons, LeVerne and Tim will be glad to show you around there. We look forward to the pleasure of your visit.

Yours sincerely,

TERMS AND CONDITIONS

This list cancels all previous quotations and prices listed herein are subject to change without notice. Material offered subject to prior sale.

All prices are f.o.b. our nurseries.

All stock when especially selected in the nursery will be sold at prices commensurate with the values of the specimens chosen.

Terms: Deposit required on all orders to be held more than 60 days. Cash in advance unless satisfactory arrangement is made when orders are placed. 5% cash discount allowed. To those establishing accounts with us terms are 2% 10 days, net 30 days. Interest at 6% per annum to be paid after maturity.

Plants become your property upon delivery to carrier and we cannot be responsible for loss, damage, or delay in transit.

We express or imply no warranty as to productiveness or life of stock. We assume no liability for delay or failure in filling orders due to strikes, accidents, crop failures or other causes beyond our control. It is mutually agreed that our liability for untrueness to name is confined to free replacement or refund of purchase price.

Claims must be made in writing within five days of receipt of goods. No claims considered on past due accounts.

All orders are based on the distinct understanding that the purchaser agrees to the conditions of sale as stated above. No deviation whatsoever from prices and/or these conditions of sale except by written agreement or confirmation from business office.

Please use your printed business stationery in all correspondence.

DELIVERY SERVICE

Arrangements can be made to deliver full trailer load orders, for which a reasonable charge is made. Quite often, less than trailer load lots can be combined with other orders consigned to the same locality.

Delivery charges are always net, due and payable when bill is presented.

WHEN PICKING UP STOCK WITH YOUR TRUCK please be sure to send a tarpaulin or suitable covering to protect your plants from drying out on the road. We will supply labor to load your truck and during the busy planting season can arrange to load your truck in the evening or Sundays if necessary.

AQUIFOLIUM (English holly)

English and Chinese hollies have been tested along with opaca varieties. By the same process of elimination we have selected varieties with good growth and fruiting characteristics and outstanding hardiness as well. Our stock plants have become well acclimated to Northern weather over the years giving us considerably harder strains; in many cases better than some so-called "hardy" opacas.

PIERIS (Andromeda)

We are growing *Pieris Japonica*—by the acre—in the open field; in full sun and in heavy soil. Plants are bushy (many wider than high) have good color—well budded—in sizes to 3½ ft.

Japonica (Japanese Andromeda) Attractive evergreen foliage, Cutting grown from selected strain. More compact, much better than usual seedling grown. Heavy, dark green foliage; terminal growth quite red. Bloom stems and buds reddish-pink. Profusion of clustered pink to white blooms in early Spring.
